

THE GRAND MASTERS SERIES

Plantation

48" WOOD BURNING FIREPLACE

Grand Presence,
Traditional Masonry
Design

Stylish extras for homeowners...Better value for builders

FIREPLACES
FOR BUILDERS
Fmi

Awesome Presence, Outstanding Performance

What also just may be the perfect manufactured fireplace, the new *Plantation* from Fmi is the flagship of the Grand Masters Series. 48" wide with an astounding 42" tall opening and slanted back. Perhaps even more impressive, the hearth floor only 1 ½ inches above the floor; just like the highest quality traditional masonry masterpieces. It's the latest *Vesta Award*-winner in Fmi's exciting line of hearth products featuring Mosaic Masonry™ technology...and a host of other beautiful new features homeowners will love!

Homeowner Highlights:

- **Dominating Presence** — The *Plantation* is a dominant feature in any home. It's nearly 12" taller than the nearest contender, with a rich new "split" herringbone brick pattern.
- **Masonry Firebrick liner** — The Mosaic Masonry™ firebrick lining system positions Fmi's Grand Masters Series as the industry's only real masonry, factory built and UL 127 lab certified fireplaces! The beautiful kiln-fired clay firebrick lining kit is indistinguishable from site-built masonry.
- **Efficiency and performance** — The *Plantation* also features a real masonry style damper door and smoke closet, and vents with 12" double wall chimney. It's among the most reliable, highest performing fireplaces available.

Builder Benefits:

- **Masonry Firebrick Liner** — The patented Mosaic Masonry™ firebrick kit is a complete masonry lining system of pre-engineered, steel reinforced, kiln fired clay firebrick walls that install as easily as typical factory-built concrete liners, but finish just like site-built masonry.
- **Reliability and Versatility** — On top of the authentic, masonry appearance, the *Plantation* is a UL 127 tested and certified "zero clearance" fireplace. This means flexible and reliable installation options and guaranteed performance.
- **Unparalleled value** — Hand crafted masonry finished fireplace at a fraction of the cost and installation time of site-built; with factory controlled quality, and performance.

Plantation

48" WOOD BURNING FIREPLACE

The *Plantation* features rich, "split" herringbone brick pattern. The dramatic 48" x 42" opening is easily the largest in the industry. It's also the only woodburning fireplace featuring a flush hearth floor design.
